We aim for a perfect fit every time...

We can upgrade your chair easily with many accessories and customisations.

This to ensure your daily tasks can be performed safely in the most comfortable way.

This brochure showcases the many adjustments and enhancements that can be implemented with TA's accessories. Morton & Perry technicians can offer further customisations on request.

Standard features at no upcharge included in every chair:

- Seatplate to floor only 38cm**
- > With electric HiLo elevate function. Standard on all chairs
 - > Easier access under table and desks
 - > Lower centre of gravity improves safety & stability at speed

- Expandable Electronics**
- > Standard access to 4-6 power functions capability see power functions on pages 6, 7, 8, 14, 15, 18
 - > Access to a alternative controls capability page 13

- Travel further**
- > No range anxiety when out and about
TA iQ Models: 40km, TA Models 22km

- Travel Safer**
- Occupant can remain in chair in vehicle
 - > Crash Test Safety Compliant - to ISO7176-19, NZ LVVTA 45-60 2.6

- Full support from our team**
- > Individualised sequencing programming
 - > Simpler memory function setup
 - > After sale support

TAiQ Keep it black or spice it up...

Atomic Teal

Canyon Copper

Carmine Red

If you would like to add your own flavour;
Custom colours or designs are available upon request.

For the TA iQ models only. Additional charges may apply.

Rims & Tyres

TA iQ comes standard with black rims and tyres.
You can swap them out for alloy rims and/or swap
the tyres out for gray.
(Custom colours can only be added to the black rims)

TA Indoor comes standard with alloy rims
and grey tyres.

Power Elevate, Tilt & Back Recline

Included standard

Telescopic HiLo elevate function

The HiLo function is included standard with each TA & TAIQ chairs.

- > It allows for a 30cm lift (20cm for the TAIQ standup)
- > Allows you to sit lower, so the chair fits under tables and desks. Also gives you more head clearance if you remain in the chair in a vehicle.

50° Back Recline

Standard with each TA & TAIQ* chair. Choose between manual or electric. The electric recline offers extra user comfort.

Included standard

code: **XTA91033**

Gyroset Vigo

Gyroset™ Vigo is a proportional, wireless headset that enables users to control their powered wheelchairs smoothly with their head movements.

Giving back mobility to patients with: Spinal cord injuries, ALS, Quadriplegia, Muscular dystrophy, Multiple Sclerosis and many more.
code: **XTA80910**

Main Features:

- > The smoothest proportional head control available on the market
- > Wireless Bluetooth technology
- > Connectable to mobile phone
- > Extremely short training period required
- > Customizable settings (all angles and sensitivity) for each individual's needs in the free software
- > Built-in emergency stop functions

Overview:

- > Compatible with PG's OMNI, OMNI 2
- > Super sensitive – use it even with the smallest head movements
- > Works with any external switch you prefer, but our Headrest Sensor is included in the kit
- > Re-calibrate neutral position any time
- > Access seating, speed and profile menu with the infrared sensor, adjust each setting easily
- > Activate – deactivate drive mode easily

Omni2

The R-net Omni2 is compatible with a whole range of Specialty Input Devices (SIDs) including: joystick types, switch panels, switched and proportional head controls, sip-and-puff and scanners. code: **XTA95541**

- > R-net specialty control Interface
- > Large, high resolution, 3.5" VGA screen
- > Integrated Bluetooth® wireless technology
- > Infra-Red (IR) control
- > Built-in light sensor
- > USB charging socket
- > High-volume horn
- > Dual-channel inputs, analogue and digital
- > Sip-and-Puff transducer
- > On-board configuration programming
- > Electronics sealed to IPx4
- > Backwards compatible - 'Connect & Go'

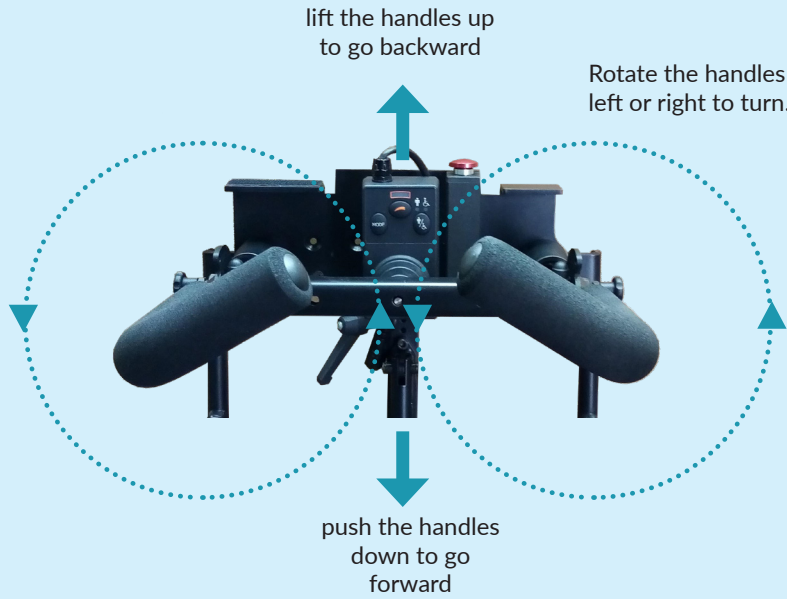

Attendant Control Carer Handle

The Attendant Control Kit allows an attendant or caregiver to steer & control the TA powerchair while walking behind the powerchair in a functional way. The unique part is that the handles operate like plane controls.

code: XTA80533

The handles can easily be height adjusted just like pram handles.

Attendant Control Dual

Attendant can control all chair functions; drive, seating functions etc.

code: XTA95213

Flight Kit LED Lights & USB Charger

Flight Kits

Flight kits are designed to disconnect the batteries easily. This is an requirement for most airlines.

TA iQ Flight kit

IQ code: XTA97285

TA indoor Flight kit

Indoor code: XTA95527

Light LED package incl hazards and indicators.
code: XTA97223

TA USB Charger 3AMP (dual)
code: XTAUSB

Louder Disc Horn (JSM2 Controller compatible only)
code: CUSTOM

Storage Bags & Hooks Push Handles & Rearview Mirror

Real Leather

TA Leather bag (new style)
code: XTA80994

(for 45cm chair width, physical plate measurement 40.5cm)
code: XTA80216

Extender for seat plate 50cm (20")
(for 50cm chair width, physical plate measurement 45.5cm)
code: XTA80215

For more anterior tilt

TA Anterior wedge (Custom)
code: XTA80817

Mid Plate

Mid plate for all Chairs (needed for 20" and over)
code: XTA80502

Seat Belts Back Canes

2 Point Pelvic Belt

Pelvic positioning belt. 2 Point padded.
Buckle may be opened by one hand.

Medium code: XTA93223

Large code: XTA93224

4 Point Pelvic Belt

Pelvic positioning belt. 4 Point padded.
Buckle may be opened by one hand.

Medium code: XTA93227

Large code: XTA93228

Back Canes adjustable width -
Tall straight 1" cane design
code: XTA80355

Back Canes adjustable width - Contour design
(only for Icon backrest)
code: XTA80298

Contour canes are best with a fixed mounted back not
needing angle adjustment.

Chair widths - Drive wheel size options

Standard door jambs allow for clearance of 32"/82cm. However some doors are custom made smaller, ie 27.5"/70cm or even narrower. Changing to a narrower wheel can make the difference to a chairs width.

Chair	TAiQ with Std wheels	TAiQ with Narrow wheels	TA Indoor / TA Junior
Chair width	24.75"/63cm	23.5"/60cm	22"/56cm
Tyre height	14" standard	12.5" code: XTA97270	10" standard
Minimum seat pan to floor height	15"/38cm	15"/38cm	15"/38cm
Max client weight	140Kg	140Kg	120Kg

Note: If the doorways are very narrow & tight, consider the TA Indoor or TA Junior that has a width on only 22"/56cm with a very short wheelbase of 27"/69cm, and a tighter turning radius of 18"/45cm.

TA iQ Junior & TA Junior Seating set-up accessories

Headrest system, cushion
+ bracket - Jnr 5" (12cm)
code: XTA80288

Headrest system, cushion
+ bracket - Med 7" (18cm)

Included
standard

Junior Flip up armrest bracket (set)
code: XTA80302J

Junior chairs are compatible with most accessories in this catalogue,
including custom colour and print options, please ask!

The Dahl wheelchair docking system is a safe way to quickly and independently (for some users) secure a power wheelchair in a vehicle.

A plate attached to the underside of the powerchair slides into the Docking System which is mounted to the floor of the vehicle. The shape of the plate ensures easier docking as it guides the chair into a secure and stable position.

With the use of an electric button the dock will be locked. Once locked, the chair will not twist or move while driving.

Docking Plate

The Docking plate fitted under the chair is very flush. It doesn't protrude or catch kerbs or door frames, unlike pin systems.

Interchangeable Seating Positions

The docking station can be used for either wheelchairs or car seats. It is easy to install a connector to the vehicle's original seat and swap the chairs out when taking turns driving the vehicle.

Road Safety

All TA Electric wheelchairs comply with the NZ safety standards (LVVTA 45-60(02) Disability Transportation Systems) and, in particular, international standard ISO 7176-19 (wheeled mobility devices for use as seats in motor vehicles). TA Service have crash tested their chairs to maximise your safety and minimise your injury risk in the event of a collision.

Dahl Docking installation kits are available for a wide range of vehicles.

Please check the brochure for compatible models on our website or give Morton & Perry a call.
